What \$40 covers

One agreed issue in an existing Flask app or REST endpoint.

The code change, a relevant verification check, and a short explanation of the fix.

Confirm the fit first

Share your stack, expected behavior, error, and reproduction steps.

New apps, extra issues, deployment, paid services, and ongoing support are separate scope.

Also in the portfolio

Interactive Three.js / WebGL

Tactical scene, replay, camera and Director Mode controls. View the source and demo work.

Send your issue. Get a clear scope.
